

ANALYSES & INDICATORS

To go further in the analysis of your company data, QS-bi allows you to create overview dashboards without getting lost in the settings. Focus on managing your activities based on data-driven decision-making. The web interface allows you to share dashboards via a simple browser. QS-bi is based on the software of the real-time data analysis expert TIBCO Software Inc.

DATA IMPORT AND PREPARATION

- ✓ Multi-source data import (databases, .xls, .xlsx, .csv, .txt files...)
- ✓ Preparation of data with integrated functions

CREATION OF DASHBOARDS

- ✓ Creation of graphical indicators (histograms, pie charts, curves, etc.) and cartographic indicators
- ✓ Creation of pivot tables
- ✓ Dynamic data mining through detail viewing

SHARING ANALYSES

- ✓ Web visualization of interactive dashboards from a web browser
- ✓ Centralized backup on the TIBCO library

THE BENEFITS

- ✓ Aggregate your workshop data with your company data
- ✓ Automate the production of your key indicators and make analysis and decision-making easier
- ✓ Benefit from a single interlocutor and from the QUASAR expertise to create your industrial performance indicators

THE BENEFITS OF B.I. FOR THE COMPANY

B.I. is an improved version of Excel. The B.I. allows for many more interactions with the data. It is possible to zoom in on graphs and go deeper : for example, by clicking on the turnover, you can have the detail of each customer up to the invoice line, or even lower, and all this in a dynamic and user-friendly way.

The purpose of B.I is to be connected to several information systems simultaneously in order to have a transversal vision of all the company's data. It is a great tool for analysis and communication.

TIBCO SOFTWARE AND QUASAR PARTNERSHIP

QUASAR Solutions integrates the TIBCO Spotfire BI software with the partnership of TIBCO Software Inc., a US-based provider of real-time data management and cloud computing solutions.

Find out how B.I. is implemented at our customers' sites on our website : <https://www.quasar-solutions.fr/bi>

9 MODULES TO MEET THE M.E.S NEEDS IN YOUR COMPANY

Initially expert in quality control and production management, QUASAR has progressively extended its functional scope to offer today a comprehensive M.E.S offer. Store all your production data in a single system linked to the company's information system (ERP, PLM, CMMS, etc.). Its wide range of features makes it a progressive and flexible tool that can easily be adapted to meet your company's needs.
